Groups established: "YAC" or Young Adults for Change, youth advisory council and leadership group plans service learning projects and special events

CenterFest was a great success on April 22nd with 70 youth participating. Of the 70, 53 youth ages 16-21 were in attendance and a total of 108 people participating. Over 19 partners

participated in CenterFest by volunteering, setting up informational tables, and donating raffle items.

Staff brought one youth to Burlington for the Young Adult Voice Movement YAVM Conference May 27th.

Please report major activities and accomplishments for the following goals, outcomes, and indicators as relevant for the sub-grant. *[This section of the report may be entered directly into the table below.]*

Goals for strengthening the systems of care	<p>1: Young adult (YA) leadership is developed in VT.</p> <p>By getting to know our key stakeholders, this will allow us to know what is expected of us, from our stakeholders, and how we can continue to strengthen the systems of care. We have a collaborator’s meeting planned for August 23rd where our area stakeholders and collaborator’s will meet at “The Center” to discuss our successes and challenges. We will discuss ways to better provide for our youths and talk about additional resources and trainings available to “The Center” staff and youths.</p>
	<p>2: Family/adult allies support young adults....</p>
	<p>3: Workers use caring practices known to be helpful for young adults and families.</p> <p>Our plan to accomplish this is continued training. Four YIT staff participated in the TIPS (Transition to Independence Process) interview portion of the training in Burlington June 8-9th with YIT coordinators state-wide as well as with JOBS partners from across the state.</p> <p>We are also planning to attend “Say it Straight” training with the Rutland Area Prevention Coalition as well as “Bridges out of Poverty” training through the Vermont Foodbank.</p> <p>These training seminars are all known to be very positive for working with youths and their families.</p>
	<p>4: System of Care partners gain cultural & linguistic competence (CLC)....</p>
	<p>5: Local communities (including young adults) change their perceptions of young adults and of mental health issues, reducing stigma....</p>
	<p>6: Effectiveness of the Vermont System of Care for young adults with SED is evaluated.....</p>

	<p>7: The State supports and sustains regional services for young adults....</p> <p>This can be developed by continued reporting</p>
<p>Desired outcomes for young adults of transition-age</p>	<p>1. Decreased number of young adults involved in the corrections system (including an increase in the number who are free of incarceration).</p> <p>The Center staff continues street outreach, Center open hours for drop in, serving lunch, and engaging youth to build trust and caring relationships. The Center offers volunteer, service learning and internships for youth referred from many local organizations including Restorative Justice/ Diversion, Drug Court, Rutland High School, Vermont Adult Learning, and many more. Youth volunteering at the Center are also given career exploration, resumes, references, and job skills to help them succeed and reach their goals.</p> <p>Community Outreach attended the Rutland Regional Partnership for Family Service (RRPFS) meeting focusing on addiction and two Three Steps Forward meetings with the Rutland Regional Workforce Investment Board- we are part of the program they are beginning for 15 to 25 year old women to help them gain skills in technology and become more employable.</p> <hr/> <p>2. Increased number of young adults who are employed....</p> <p>The Center has been able to increase youth employment with mock interview workshops, more extensive resume help, multiple job search resources, providing interview clothing through donations and thrift shops, providing work attire through other funding, and transportation (bus passes) privileges.</p> <hr/> <p>3. Increased number young adults participating in (or who completed) educational programs....</p> <p>We have been working very closely with Job Corp. The Center has been able to help two individuals get accepted to this wonderful program and have another youth in the process of applying now.</p> <p>The Center has also helped two youths find the courage to enroll at CCV for the fall semester.</p> <hr/> <p>4. Increased number of young adults who have access to, and are using, a medical home....</p> <hr/> <p>5. Increased number of young adults living in safe and stable housing....</p> <hr/> <p>6. Increased number of young adults who have caring & supportive relationships....</p>

	<p>The Center also provides a strong support system for all youths that come to us involved in the criminal justice system or not. We provide community service “volunteer opportunities for those who have been court mandated for hours or those just looking for job experience. It seems that if The Center has a working relationship with a youth, they are less likely to follow a path of crime. This may be because the youth does not want to disrupt the relationship or disappoint those who support him/her at The Center</p>
	<p>7. Increase in young adults’ strengths and protective factors....</p>
	<p>8. Improved mental health for young adults.</p> <p>This has been at a stand still for the past two months. Many services can not take on new clients at this time or are cutting back on funding. I will readdress this issue in the next quarterly report.</p>
